

Update on safety verification

(As of March 30, 2018)

(1) Customers' responses at present

For customers to whom nonconforming products were shipped, found through the self-inspections conducted by the Kobe Steel Group and through the investigations by the Independent Investigation Committee (the "IIC") covering the past one year, and for products other than those delivered directly to customers, Kobe Steel at this time has not confirmed cases that would require the immediate suspension of use or immediate recall of the products.

(2) Current progress of safety verification

Owing to the enormous amount of cooperation from its customers, the Kobe Steel Group is earnestly proceeding with safety verification. At this time as outlined below, the safety has been confirmed at 520 companies out of the 525 companies (or 99.0%) to whom nonconforming products were delivered as announced on October 26, 2017, and 155 companies out of an additional 163 companies (or 95.1%) identified since the establishment of the IIC on October 26, 2018 as announced on March 6, 2018.

The Kobe Steel Group will continue to wholeheartedly devote itself to cooperating with its customers in order to complete the safety verification at an early time.

Updates on safety verification will be posted on our website when progress is made.

Update on safety verification

As of March 30, 2018

Major category	Company name	Material	Main purpose	Announced on October 26, 2017		Since the IIC's establishment (October 26, 2017)	
				No. of customers	Safety verification	No. of customers	Safety verification
Aluminum & Copper	Kobe Steel, Ltd. Aluminum & Copper Business	Aluminum sheets	Can stock Cars	57	52	7	7
